FBN Direct products and services and other products distributed by FBN Direct are offered by FBN Inputs, LLC and are available only in states where FBN Inputs, LLC is licensed and where those products are registered for sale or use, if applicable. Individual results from use of adjuvant products may vary and are dependent upon additional factors, including but not limited to weather, agronomic conditions and practices, crop selection, soil type and condition, time, method and manner of application, application rate, and geography. Consult an agronomist before any use not addressed on the product label. ALWAYS READ AND FOLLOW LABEL DIRECTIONS. In the case of tank mixes with multiple pesticides, follow the most restrictive fertilizer or pesticide label instructions when using a crop nutrition product. Remember: Geography and accompanying weather and soil conditions impact the functionality of adjuvants. If there are gaps in the language on the label, consult an agronomist before use. This information should not be used as a replacement for consulting the applicable product label.
