ALWAYS READ AND FOLLOW LABEL DIRECTIONS. It is a violation of federal and state/provincial law to use any pesticide product other than in accordance with its label. The distribution, sale and use of an unregistered pesticide is a violation of federal and/or state law and is strictly prohibited. We do not guarantee the accuracy of any information provided on this page or which is provided by us in any form. It is your responsibility to confirm prior to purchase and use that a product is labeled for your specific purposes, including, but not limited to, your target crop or pest and its compatibility with other products in a tank mix. This information should not be used as a replacement for consulting the applicable product label. Consult the label for the most complete and up-to-date information about any referenced product. Readers must have a valid applicator license to use restricted use pesticides. Please consult your state department of agriculture for complete rules and regulations on the use of restricted use pesticides, as some products require specific record-keeping requirements.

WILLOWOOD CLOMAZONE 5G

Same active as CERANO®

MIXING PROCEDURE

Mix Willowood Clomazone 5G as follows:

- Fill spray tank 1/4 to 1/3 full with water and maintain agitation.
- Add the specified amount of ingredients using the following order:
 - a. Dry formulations (e.g., wettable powders, dry flowables)
 - b. Liquid suspensions (e.g., flowables)
 - c. Liquids (e.g., EC's)
- Mix thoroughly and fill tank 1/2 full and maintain agitation.
- Add Willowood Clomazone 5G to tank and maintain agitation.
- Complete filling the sprayer tank with water.
- If a surfactant is added, add it as the last ingredient to the spray tank.
- Maintain agitation during filling, mixing, and application.
- If using a drift reduction agent, follow specific product label instructions for order of addition to spray tank.

CROP STAGING

- Make application of Clomazone 5G for the following:
 - 1-Leaf or Less:
 - Watergrass
 - Barnyard Grass
 - Sprangletop
